

# Agility Building

## Building Specifications

- ❖ Inside dimensions -- 114 ft x 84 ft (note restrictions for useable space)
- ❖ Deducting space at south end of building for check-in, observers, etc, and allowing for the 2ft post protruding along the sides, judges should design courses for a 100 ft x 80 ft space.
- ❖ There are two people doors. The one on the south end of the building should be the entrance/exit. The door on the east side has a combination entry lock on it and should be used only in an emergency.
- ❖ There are two refrigerators and a small table in the southwest corner (dotted rectangle). This corner creates a 3.5 ft x 2 ft (approx) of non-useable space
- ❖ There are four "posts" (black) along the east and west sides. Each post is 6" wide and protrudes into the building 2 ft (no posts along north & south sides)
- ❖ There is generally 22 ft between each post;
- ❖ There is 5 ft between the post and the 14 ft doors on the east and west sides.
- ❖ There are four large sliding doors (orange); one on each side; each one is 14 ft wide

## Miscellaneous Information

- ❖ There is a gravel walkway around the entire building
- ❖ On the north side of the building is an arena full of ducks and a few geese.
- ❖ On the east side there is an area used for a pumpkin patch
- ❖ On the south side, there is an open pasture/arena that may have dogs working sheep in it
- ❖ On the west side, there are holding areas for sheep so may or may not have sheep
