Pumik Qualifying for a CHIC Number

The Hungarian Pumi Club of America is proud of their members' dogs who have completed all their recommended health tests for their Pumi and agreed to have the results released to the public domain. The dog must also have a permanent identification, such as a tattoo or microchip. When all the tests are completed, the dog receives a CHIC (Canine Health Information Center) number. The required tests are for Hip Dysplasia (x-ray), Patellar Luxation (exam), Primary Lens Luxation (DNA), and Degenerative Myelopathy (DNA). The CHIC number does not imply normal test results, only that all tests were performed and made public. You can see a current list at www.offa.org.
