President's Message

Off we go! Thank you all for your confidence in me to serve as the President of HPCA. It truly is an honor. I am still getting my feet wet – figuring things out, learning of the status of the various projects that are on-going, hearing about things that need the board's attention. The one thing that I am learning is, like all

volunteer organizations, we need MORE volunteers! Yes, that means YOU! Several committees need members. Even if you know nothing about a topic, thoughts and opinions matter, plus it is a great opportunity to learn. If a commitment to a committee isn't your thing, think about a short – term project. We need volunteers at Pumifest, at all of the events around the country, help with awards and fundraising. All willing hands are welcome.

Thank you, Ginny Hayes, for serving on the HPCA Board. Dennis Craig, thank you for your work as Vice President and to agreeing to continue by filling the remaining year of Maria Acechaederra's term as a board member with her mover to Vice President.

Now that spring is wrapping up, begin to make plans for Pumifest! Starting September 26 in Denton, TX and running through September 30, the days are jammed with events: Herding, Agility, Obedience, Rally, and Confirmation. All the information is on our website, pumiclub.org. It is always fun and great to see everyone.

Don't forget that HPCA will be offering an all-breed agility trial June 17-19 in Minnetonka, MN. This is a great opportunity to do agility, meet pumi people and have a great time.

2022 BOARD OF DIRECTORS

Get excited for a HPCA FIRST! FastCAT! Yes, FastCAT! July 8-10, Stillwater, MN. Fun for your dog. Fun for you. No training involved, perfect for couch potatoes!

Big shout out to Ginny Hayes and Alice Homes for organizing these events! Of course, they need help, especially on event days...great way to get to know people.

I encourage everyone to let me know your ideas. If you keep a good idea to yourself, it is only a thought and can never be.

Nancy Nelson

A Reminder About the Pumi Versatility Award Program

HPCA established the Pumi Versatility Award Program in October 2015, which recognizes the inherent versatility of the Pumi. The award recognizes dogs that participate and achieve certificates/titles in various types of competitions, including conformation, herding, obedience, agility, tracking, and other dog sports and activities in a total of 17 different categories. Non-AKC certificates/titles can count towards this HPCA title.

The program is open to Hungarian Pumi Club of America members in good standing.

There are 4 levels of versatility awards:

- ✦ VP1 (Versatile Pumi Level 1)
- ✦ VP2 (Versatile Pumi Level 2)
- ✦ VP3 (Versatile Pumi Level 3)
- ✦ VP Gold (Versatile Pumi Gold)

Information about the Versatility Program can be found on the HPCA web page at <https://pumiclub.org/club-info-2/hall-of-fame/hpca-versatility-awards/> .

The Versatility Award Application form: <https://pumiclub.org/members-only/member-forms/>

We'd like to see more applications for the Versatility Awards!

Please contact Meir Ben-Dror, Versatility Chair, at meir@pumi.dog or Facebook PM if you have any questions.

Zsa Zsa's Musings

By Zsa Zsa and her assistant, Nancy Nelson

Fall 2021 (playing catchup!)

Wow, where has time gone? It is almost Christmas! I have spent the last few days on my list for Santa. I hope he anticipated what I want or else he will be paying overtime to the elves! I hope the elves don't have supply chain issues. I don't really know what that means, but Mom keeps saying it when I want something. Personally, I think it is a trick, so she doesn't have to go get what I want.

I have been super busy this fall. Unfortunately, I couldn't attend Pumifest. Mom went leaving all of us at home. We had been hosting Fina and Fruckus (now Forrest) for a few weeks while Mom and I searched for new homes for them; they went to Pumifest to catch a ride to New Mexico (Fina) and meet their new person (Forrest). Fina is with Alexa Maros and Forrest is with Brenda Hall. All of us, Lila, Dragon, Hedi and I are happy that they found new people to love. Mom gave me a full report on Pumifest. I was really MAD at her for not taking me. I ignored her for a whole week.

After Mom came home from Pumifest we went to New Jersey for the Morris and Essex Kennel Club show. It was my second time at my all-time favorite show. Mom made Hedi and I scarves to match her dress! With my love of fashion, a day at this show is my idea of heaven. Everyone looks so fantastic, with hats and elegant dresses. There was one gentleman in a vintage Army uniform....what a great period look. The Pumik were well represented with several people coming straight from Pumifest. It was wonderful to see friends. I competed in Veterans' Sweeps with Fleet (Jenny Cobb) and my half-sister Rozi (Danielle DiBona). I must say I did a FABULOUS job on the supported entry prizes, everyone told me so! The only thing I hated was trying to be on my A game at 7:30 in the morning. I really am NOT a morning dog.

Like many of you we are back to most of our activities. Dog shows, agility competition (my first in 3 years – I don't want to talk about it), scent work, and learning tricks for trick dog. We have also been going out more. My favorite is lunch at Nordstrom. Usually we stay local, but for my birthday Mom took me to lunch at the Flagship store in New York City. I love NY. You must be on your best behavior and prepared for everything in NYC. Usually, the streets are filled with people from all over the world. There are sirens and horses. Even Elmo in Times Square. Dragon and Hedi have been working on their manners and being brave so that they can go. It is so easy to get scared when one isn't out and about all the time. I too, have to remember to greet people that Mom says are ok and let them pet me. Hopefully you have been able to venture out to new places. I know many of you are shy, I totally get that, but remember most humans are nice. Get out when you can, Nordstrom's, Home Depot, Lowes, any retailer that is open minded and understands that dogs like to shop too. The park is fine too and I love window shopping in town.

What are my 2022 New Year's plans? Like everyone, my resolutions don't change much. Stay on top of the latest trends. Learning new things. Frustrating Mom in agility (so easy to do it is almost not fun). Going out and about daily. I hope to get back to my therapy dog work. It is so important to give back. I am thinking of trying something new too. I think I might enjoy Trick Dog. Get your human out and about, learn something new.

I've got to run – it's time to pack for Orlando! I am so excited to see everyone, do some shopping and get into the ring again. Then Christmas...Oh I do hope Santa finishes my list.

Spring 2022

Busy, Busy, Busy! Now that things have started to go on, I have over committed myself. Of course, demand for my presence at various events is high and I want make everyone happy. What are you doing? Are you back to your classes, trials, shows? Personally, I have retired from shows. Oh, Mom insists I make an occasional appearance, she insisted I go to the events in Concord, NC in June. Since I LOVE hotels, I agreed to go.

I try to get out every day. Of course I go to the dog shows, even though I am not competing I love to visit friends and cheer on Hedi. I did an agility competition (my first in 3 years – I don't want to talk about it). Fast CAT is always fun, but it is just beginning again – silly people don't want to be outside in the cold! I know some of you do scent work, dock diving, herding not me, but they look fun.

We have also been going out around town more. My favorite is lunch at Nordstrom. Usually we stay local, but for my birthday Mom took me to lunch at the Flagship store in New York City. I love NYC. You must be on your best behavior and prepared for everything in NYC. Usually, the streets are filled with people from all over the world. There are sirens and horses. Even Elmo in Times Square. Dragon and Hedi have been working on their manners and being brave so that they can go. It is so easy to get scared when one isn't out and about all the time. It is important to remember to greet people that Mom says are ok and let them pet me. Hopefully you have been able to venture out to new places. I know many of you are shy, I totally get that, but remember most humans are nice. Get out when you can, Nordstrom's, Home Depot, Lowes, any retailer that is open minded and understands that dogs like to shop too. The park is fine too and I love window shopping in town. Now that the weather is warmer, restaurants allow us to eat out. Eating out is almost as good as shopping, not quite, but close.

I am thinking that now might be the time to try something new. I am not sure what that will be. I am a big fan of napping – do they have a competition?

Hugs,

Zsa Zsa

Aimee's Story

By Ammie

Hi,

My name is Ammie and I asked my family to help me tell my story.

I was rescued April 24th along with several other Pumik when my human caretaker became very ill and could no longer take care of us. I have a lame leg and none of the humans know how or when it happened, only that I was not born that way. We spent some time at the veterinary hospital before a very kind woman named Cameron took me and my sister home with her until my rescue team could locate my forever home. Another kind lady named Sandy came to give me a bath and a new hairdo.

A family in South Carolina contacted the rescue team and Linda spent many hours on the phone telling them about me. They fell in love with me the moment they saw my picture and wanted to adopt me. It was a long trip from Texas to South Carolina, but worth it. My new Pumi brother Kodi greeted me and we now have a new Pumi baby sister (they say she will grow on us). I am so happy to have a new family that loves me.

I want to tell you my story for some important reasons. First, I want to thank everyone who was involved in rescuing us including those who

generously donated money for the rescue and our care. I hope you know how grateful we are for everything you did for us. I have a new home thanks to the time and efforts of so many kind Pumi owners.

Finally, there's also a lesson here that hopefully will help other Pumik avoid or at least make an awful situation easier.

We can all agree that we are a special breed that may not be a good fit for everyone. This makes it especially important that there is a plan for our care if something awful happens to our owners, like what happened to mine. You may be lucky enough that your breeder or a family member whom you trust implicitly with your Pumi's life, is willing and able to care for your Pumi. You should also consider creating a trust to provide a legal agreement for the care of your Pumi. After all we are your children too, aren't we?

A pet trust is a legal arrangement. Pet trusts should designate a caretaker, provide financial assets from the estate to care for the pet and specify the type of care the pet should receive. The trust can specify many different detailed aspects of your Pumi's care, including: Veterinary records, special health issues (like my leg), food, living environment and favorite activities/training.

The funds that are provided for your Pumi's care should be carefully calculated to ensure that they will be adequate for the lifetime care of your Pumi. You can also specify your wishes for your Pumi's end-of-life care. You may find a great deal of comfort in knowing that your Pumi's needs will be met should your Pumi outlive you.

My story turned out to be a happy one, thanks to the efforts of so many generous Pumi owners, but I know you don't want your Pumi to go through what we did.

A grateful Ammie

KIDS CORNER

Lola Meets the Twins

The day started out like any other day in the life of 6 month-old Pumi pup, Lola. Lola woke at 7:00, like every other day, got up, and had a good stretch, and bounced outside for a wee. Then she gobbled up her breakfast and sat patiently waiting for someone to pay attention to her or take her for a walk. She had NO idea of the special surprise that was in store for her that day.

After breakfast, Dad took Lola for a short walk. When they got home from their walk, Mom and Dad seemed distracted and Mom bustled around the house picking up Lola's toys and dusting and vacuuming, baking cookies and making other nummy foods in the kitchen. Lola noticed this and started to suspect something NEW was going to happen. What was going to happen? Would she be meeting a new dog? A new person? Were they going for a car ride? What?? She was bursting with curiosity!

Around lunch time, the doorbell rang and Lola ran to the door to greet the visitors. In came two adults with TWO tiny babies. Lola was beside herself with joy. Not only was she seeing PEOPLE (her very

favourite thing), she was meeting LITTLE PEOPLE. And oooooo, those babies smelled good! Lola was a very good girl, only licking their faces ever so gently with feather kisses. Her Mom and Dad were so happy to see the “twins” and they were also very happy that Lola behaved so well with the babies. She didn't frighten them or nip them – she was just VERY curious about them and gave them lots of licks and kisses.

When they left, Lola was sad, but she was also worn out and headed straight off for a nap! What an exciting day for Lola the Pumi puppy to meet TWINS!

Sky Fliers

By Wicca

I know what you're thinking!

How could I have let it happen? How could my Pumi superpowers fail?

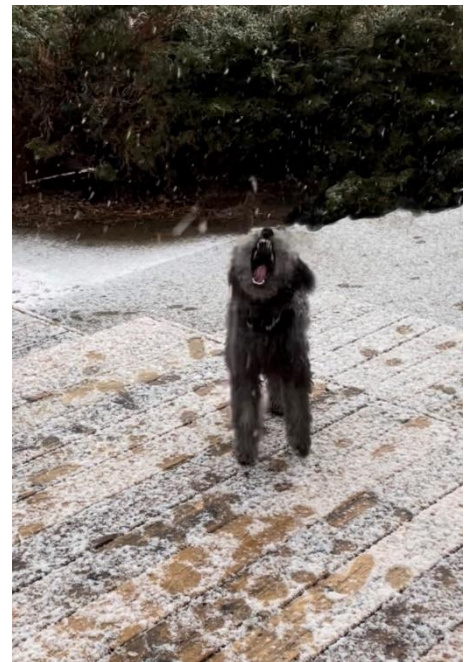

Well, let me tell you...in my five months of life, I've seen a lot, but never have I experienced this type of sneak attack!

They were already taking over the deck...one at a time. Same thing in the yard. They were everywhere! The menacing whiteness threatening to take over the world.

And then I felt one, then two! I looked up.

Splat! Splat! Ping! I was getting hit all over. My eyes all squinty from the sting. They disappeared into my paws. Disappeared on my tongue. And yet, they kept falling, turning the air into a mass of falling white dots.

What were these magical stinging, disappearing white flying things?

My tongue tickled whenever one landed on it. I felt a ping when one made it past my eyelashes and hit my eyeball. I had white dots everywhere.

OMG! They were trying to eat me!

I did what every self-respecting Pumi would do!

I ate as many as I could. But the more I ate, the more fell from the sky. I scooped them into my mouth, I leaped, I twisted, I charged these pesky sky fliers.

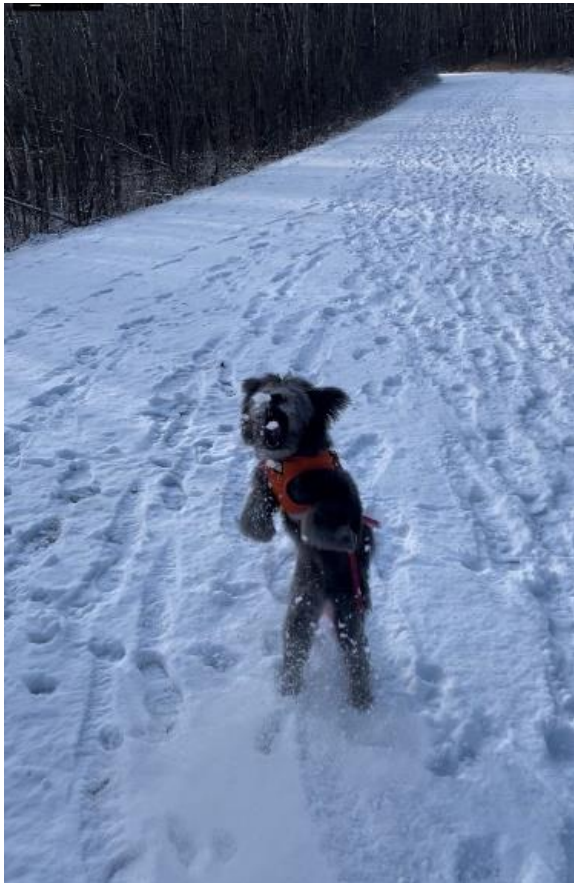

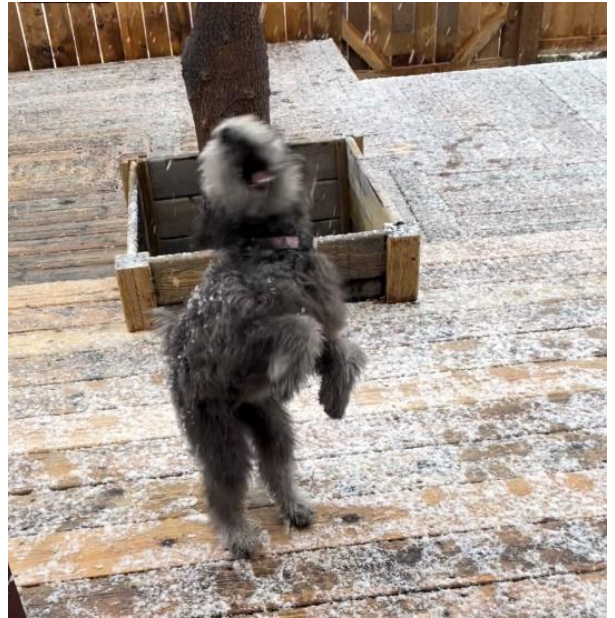

I just couldn't keep up.

Trying to fill my mouth with one grab. Holding my mouth open, running around while they tickled my tongue and lips. Racing through them, making a swirling, spinning design in the air.

What was I thinking? I don't want to stop these spinning flakes from falling. I want more and more!

Jump...catch...tickle tongue, jump...catch...cold mouth. Ping, ping in the eyes.

Life just doesn't get any better!

Super Sonic Space Puppy blasting at the speed of light! Well, that's what it felt like racing through them.

My hooman told me this was only the start and more would come.

I started to vibrate.

There's going to be more! And more came, covering the ground so I sunk with each step. They weren't falling next time we went for a walk, but I still caught them when my hooman kicked a bunch up!

I love snow! Except when my feet get cold. I don't like that. Luckily, I have a hooman to carry me!

What a magical world I live in!

HPCA Designated Specialty - December 16, 2021

By Laura Rader

The Magnolia Pumi club had a spectacular day in sunny Orlando, Florida for the club-sponsored HPCA Designated Specialty in conjunction with the Central Florida Kennel Club shows. A couple of days prior to the specialty, our chair Nancy Nelson was admitted to the hospital in Florida and had to have emergency surgery during our show. Nancy had great care and is now fully recovered. The entry for this one day specialty was over forty Pumis. A super entry!! The Sweepstakes judge, Ms. Michelle Smee Schnaubern from England named Ederra's Hello Dolly her Best Puppy Sweepstakes and CH Copper's Flamme Du Coeur Ignacio De Villiers as her Best Opposite Puppy Sweepstakes. We were happy to have Ms. Schnaubern as the Sweepstakes judge and hope she will come back soon to visit the USA. Our breed judge had a huge task to judge so many lovely Pumis at one time. Judge, Mrs. Danelle M. Brown named her Best of Breed to GCH CH Aprodombi Maszat Marci. It was incredible to see so many Pumis in the Best of Breed ring at one time. Certainly a lot of fun to watch!

The fancy ribbons and lovely trophies were enjoyed by everyone. Thank you to all those that helped me set up the trophy table, especially Santa's Elves!!! Thank you to all the trophy sponsors for your donations as we could not have these lovely ribbons and trophies without you!! MPC had their dinner at Cuban Cuba Libre Restaurant & Rum Bar. Judy Piros did an excellent job organizing this event. It was a great evening to celebrate good food and good friendship. Congratulations to all the winners and competitors. I genuinely hope that everyone had a wonderful time, enjoyed all the prizes and events offered by the Magnolia Pumi Club. Please see below for all the winners and pictures.

The Pumi is a Solid Color with Shadings

By Chris Levy, Judges Education Chair

At this time I am aware of 2 occasions where a judge has disqualified a Pumi for being more than one color. In both cases the Pumi was not genetically two colors and probably should not have been disqualified. So let me explain.

All (correct) silver gray Pumi are genetically black, with either a “KB” gene (dominant black) or two “a” genes (recessive black). In other words, they are not genetically gray (d/d/d). All silver gray puppies are born black, with black noses and pigment.

The greying gene (G locus - still undiscovered via DNA), is progressive, so a dog with the greying gene is born solid black and becomes lighter as it gets older). The graying doesn't always affect the whole of the coat to the same extent (the shade of grey in different parts may vary, and some parts may even remain black). When a new hair is growing in, it is black, but the pigment production lessens as the hair gets longer, so the single hair has a black tip that fades to gray the farther down the hair shaft you go.

That's why the Pumi standard on color says (underlining is mine):

“...an intermixture of some gray, black or white hairs is acceptable as long as the overall appearance of a solid color is maintained.”

“Disqualification - Any multiple-color pattern or patches, e.g., black and tan pattern, piebald, parti-colored.”

An other aspect of this graying gene is that if the skin is damaged, or the hair is pulled out, the new hairs in that area will come in black and as they grow out will fade back to gray and blend in with the other hair. In both the above-mentioned cases this was the situation. You can see this in the photos

My advice if this occurs, is to stop showing your Pumi until the hair has grown in further and you can trim off the black tips. Adding a bit of grooming chalk to the black might help lighten it. But you could risk getting disqualified if a judge feels this is not “the overall appearance of a solid color”.

The Pedigree Corner – Adding Dogs in a Litter

By Chris Levy

The pedigree database now has 14,226 Pumi in it! In the last newsletter I mentioned that we were missing a lot of Hungarian dog, but in this issue I want to mention that we are missing a lot of American dogs! It is up to the breeders in the US to put the puppies they've produced into this database so we have a record of the Pumi produced by American breeders. If a breeder registers the puppies on behalf of the owners, this is simple. If a breeder allows the new puppy owners to individually register their puppy, it's been shown that the majority of pet owners never do register their puppy with the AKC and we have no idea of that puppy's existence.

The only way dogs get into this database is from someone entering each dog by hand. It is the breeder's responsibility to assure that their puppies are in this database. BUT, there is an easy way to add all the puppies in a litter at once.

Adding a Litter

This is similar to the "Litter ad" we discussed in the last issue. Click on *add a dog* on the dropdown menu (see below), and then click *add a litter*.

This will bring up a popup window:

Litter form ✕

Mother*:

Existing litters mother:

Father*:

Date of Birth*:

Key in the mother's name (the system will give you the choice) and the father. Put in the date of birth, then click *Continue*. The screen changes to:

Litter form ✕

Mother*:

Father*:

Date of Birth*:

Breeder:

Name

Abiqua Pumik

The name of the owner of the dam is automatically added as the breeder of record.

The following is added to the bottom of the screen.

Children

- Children with the same mother, father and DOB have been added automatically. You can add new animals or search for existing animals in the name field.
- All new and existing children in this list will get the mother, father, date of birth and breeder from the fields above.
- Removing animals from this list will not delete existing animals or remove them from this litter, but they will not be updated with possible changes.
- Entries in the grey line are applied to all animals on the list.

Set the breeder as the owner of the children:

+ add animal

	Name	Reg. No.	Other Registration No.	Se
Change all:	---
X new	---
X new	---
X new	---

Submit

Cancel

Please note the instructions above. We recently had a upgrade to the pedigree application, and some of these instructions are new.

- Children with the same mother, father and DOB have been added automatically. You can add new animals or search for existing animals in the name field.
- All new and existing children in this list will get the mother, father, date of birth and breeder from the fields above.
- Removing animals from this list will not delete existing animals or remove them from this litter, but they will not be updated with possible changes.

These all explain how the *adding a litter* function works. If there are already puppies from this litter in the database, they will be added automatically when this screen shows up. The ones already in the database and added automatically cannot be changed except that the breeder will be added automatically along with the other fields that you can update.

The next one talks about a great function of the this screen:

- Entries in the grey line are applied to all animals on the list.

So for example, if you put "United States" in the gray line above on the County of Origin field, that will populate that field for all of the puppies. Same applies to color, so you can easily mark all puppies as "black".

The default screen shows 3 puppies (in addition to any added automatically), but you can add more lines by clicking the **+ add animal** button.

Most of the fields available for individual dogs are available here by scrolling to the right, including all the health information, and color DNA information, microchip info, etc.

Clicking the **Submit** button will add each dog in the litter individually to the database! Done!

Pumifest Financial Recap

Jo Ann Gast

After a year off because of COVID, it was great to get together again to celebrate our remarkable breed. Thank you to the entire Pumifest committee who put on a memorable two-year combined event, hosting a record number of participants. The fabulous items donated for the auction and fun decks of playing cards for the trophy fund raiser helped to make the Combined 2020/2021 Pumifest profitable.
