President's Message

Wow! What a quiet group. Suggestions, volunteers; we need both. Every good organization is run on by member input. That means you! We know some of the things that we need to do -some is in progress, but some take volunteers. The board can't do it all, nor can we all do everything well.

What do we need? Input! Yes, we know the issues and not everything is solvable overnight and some, frankly, we can't solve. We can't make progress through unless we know what is important to you, your expectation and how to prioritize things. We also need people. We have openings on our committees. We have a real need for people to work on public education, newsletter, and health. Help with Pumifest. Even if it is small contribution, it helps.

Please reach out to me with your ideas, concerns, and interest for committees. Please don't put all the issues out on social media, give us a chance. It may be something that is in process or even something that just requires someone to spearhead; the board members can't or don't have the skill set to do it. Speak up, Stand up!

Teaser alert...ZsaZsa is creating a fashion piece for the welcome bags at Pumifest. As with all of ZsaZsa's pieces it will be unique and highly sought after! No previews yet, but she is busy, busy, busy.

I'm looking forward to seeing everyone in Texas.

2/3-5/2023	All-Breed Agility Trial	Minnetonka, MN

Reminder about the Versatility Award Program

HPCA established the Pumi Versatility Award Program in October 2015 which recognizes the inherent versatility of the Pumi. The award recognizes dogs that participate and achieve certificates/titles in various types of competitions including conformation, herding, obedience, agility, rally, tracking, and other dog sports and activities in a total of 17 different categories. Non-AKC certificates/titles can count towards this HPCA title.

The program is open to Hungarian Pumi Club of America members in good standing.

There are 4 levels of versatility awards:

- ✦ VP1 (Versatile Pumi Level 1)
- ✦ VP1 (Versatile Pumi Level 1)
- ✦ VP1 (Versatile Pumi Level 1)
- ✦ VP1 (Versatile Pumi Level 1)

[Information about the Versatility Program](#)
[Versatility Award Application Form](#)

We'd like to see more applications for the Versatility Award!

Please contact Meir Ben-Dror, Versatility Chair, at meir@pumi.dog or Facebook PM if you have any questions.

HPCA All-Breed Agility Trial

By Alice Holm, Agility Committee Chair

The Hungarian Pumi Club of America's June agility trial took place on June 17-19, 2022 at Fusion Pet Retreat in Minnetonka, MN. There were 3 Pumi entered, 2 littermates (Ukko & Binx) and their half-sister, Phoenix. It was a full trial with 327 runs on Fri, 328 runs on Sat & 314 on Sunday. The air conditioning was much appreciated by both the dogs and humans, especially on Sun when it was nearly 100 degrees outside and humid!

Judge Mark Sjogren delivered challenging but fun courses and kept handlers on their toes. Three dog & handler teams earned MACHs: Cheryl Loose and Golden Retriever Twizzle earned MACH11 on Friday, Mary Matejcek and Corgi Ginger earned MACH2 on Sat. and Deb Johnson and Mini American Shepherd Keira earned their first MACH on Sat.

Another big hit was the photo booth. Handlers always enjoy a photo opportunity with their dog even if they don't earn any ribbons.

Ukko modeling his antlers and lumberjack hat in the photo booth

Golden Retriever & Happy Campers Ryder & Sterling. These 2 earned their MACH & PACH respectively on the same day at a trial a few weeks later

New! HPCA Junior Program

By Lindy Miller, Junior Program Committee Chair

The HPCA is pleased to launch the Hungarian Pumi Club of America Junior Program. The purpose of the Junior Program is to encourage and promote interest in Pumik among our young adults, and to honor those who show outstanding qualities in furthering the capabilities of the Pumi in all dog sports.

The HPCA Junior Program is based on the AKC's Junior Recognition program which awards points for participation in all AKC events, with additional points for earning qualifying scores, wins or placements. Not just breed Jr Showmanship; the program includes the wide variety of dog sports for which the AKC awards titles, as outlined in [the flyer at this link](#):

Awards

The HPCA will honor the Best Junior Handler/Trainer and runner-up with a certificate, rosettes and trophy. Winners will be determined by cumulated points as reported on AKC.org in the Junior Recognition Program Points Summary. All participants competing with a Pumi in this Junior Program will receive from the HPCA a certificate acknowledging their accomplishment. This newsletter will include the rankings in each issue in the Ranking Pumik section.

All Competition Types as of 7/20/2022

Rank	Name	PTS
1	Savannah Mentzer (NC)	21
2	Alora Verch (OH)	15
3	Apria Phillips (WV)	9
4	Abigail Rouse (VA)	8
5	Luka Freitag (WA)	2

The HPCA will also support any Junior Handler who qualifies and competes with their Pumi at the finals of National AKC competitions. Eligible juniors may apply to the HPCA Junior Program Director for an award of \$300, payable via a check or debit card, for qualifying and participating at:

- Junior Showmanship at Westminster
- AKC National Junior Championship
- AKC Juniors Classic Obedience and Rally
- AKC National Junior Agility Competition
- AKC National Owner Handler Finals Competition

The annual HPCA Junior Handling Program will be in effect from September 1 to September 1 of the following year, subject to the approval of the HPCA Board of Directors each year.

The HPCA Junior Program is open only to Juniors who are members of the HPCA. The program is offered to any Junior younger than 13 whose parent or guardian holds a Regular or Household membership. Juniors 13 or older must hold an individual JUNIOR membership in the HPCA upon the start of the program year following their 13th birthday.

The following link to AKC.org has forms needed to apply for an AKC Jr Handler Number, Report Access Code, plus instructions, rules and regulations, and more: <https://www.akc.org/sports/juniors/>

HPCA Junior Program Awards will be announced and made at the HPCA Annual Award dinner at Pumifest.

Zsa Zsa's Musings

By Zsa Zsa and her assistant, Nancy Nelson

OHHHHH! I have just finished my fashion review – and Mom said I could write all about it rather than writing something serious for the newsletter. I have checked out the new magazines and even had the London Times fashion section to make sure I was au courant!

I know that everyone is getting ready for Texas and wants to look their best at Pumifest. Unfortunately, Mom said I was NOT going – can you imagine???

I need to be there! If I was going, the first thing I would think about is my boots. Not only are western (note that I said western – not cowboy) boots a must but pairing them with most everything is almost a TX requirement. I think they might even wear them to bed. There are all sorts of on trend styles out there – don't just think brown or black. A great soft blue or red goes with most everything. They have ones with cut – outs and bling too. I am not a huge fan of the bling ones...Everyone knows I LOVE my bling, but sometimes it is just over the top.

It will be hot, so you might not need a jacket, but anything leather with a fringe is great. Pull out the letter jacket too, that is a HOT, HOT look for fall. Jean jackets are always perfect – on trend, but a bit throwback at the same time.

Now what is everyone wearing? Anything Pumik is perfect, especially for agility and herding days. Remember that agility is part of an All-breed trial this time so you will absolutely want to have a Pumi shirt on. Everyone should know that you belong to one of us! They will be so jealous!

Conformation is dressy. Right now, florals and prints – NOT solids are the big trend. What Mom calls '80's peasant dresses are the big thing. Since most have pockets, I like them. Watch all the layers of ruffles they can get to be a bit much. Some are also really bright colors, that can be great, but remember you don't want to distract from the fabulousness of Pumik. By the way, the peasant dresses look great with boots!

Don't forget your denim, it is TX after all. You never look out of place with denim in TX. That is something that I am sure of.

Mom has promised me pictures of everyone so remember even though I am not there you still need to look FABULOUS!

Hugs,

Zsa Zsa

Letter to AKC Judges

By Chris Levy, Judges Education Chair

The following information is being sent to all AKC conformation judges. We want to be sure all HPCA members are aware of information the judges are receiving.

The Pumi Coat

The Hungarian Pumi Club of America would like to remind judges that the Pumi's coat is "a combination of wavy and curly hair, forming corkscrews or curls all over the body" and "in order to achieve the characteristic corkscrews and curls in the coat, the hair is allowed to dry naturally." There is only one line written in bold italics in the Pumi standard:

The coat must never appear fluffed and blown dry, obscuring the characteristic curls.

A key breed characteristic of the Pumi is a coat with curly locks of hair. A blown dry cannot have the characteristic curls and locks of hair that go all the way down to the skin.

The adult coat above is exceptional quality and one for which breeders strive. Not all coats will be this tightly curled, but it must be curled and form the locks. Puppies typically have very little of the harsher hair (of the required 50% hard and 50% soft hair mixed together) that may not appear until they're 2-3 years old, but it still should have some curly locks. The curls typically vary in type all over the body.

Below are more examples of good coats and curls.

Leg hair has different types of curls:

It is never OK to blow dry the hair for exhibition. The dogs should be bathed a week or so prior to the competition to allow the oils to return to the coat, helping to form the locks of hair. Bathing removes those oils, and blowing them dry results in an uncharacteristic coat that more resembles the coat of a Poodle than a Pumi.

A Pumi coat that has been blown dry

If you as a judge cannot tell if an exhibit has the correct coat for the breed because it's been blown dry, it is then lacking a key breed characteristic and must be treated as such in your decision.

Please remember that the curly locks of hair must go all the way to the skin, and the only way to achieve this is to let the coat dry naturally.

The Pumi is a Solid Color

The correct gray Pumi is genetically black with a graying gene that causes the hair shaft to lighten as it grows out. The puppies are born black, with black noses and black pigment but their adult coat is gray (with a black nose and skin pigment). This is the same gene as a silver Poodle, Bedlington Terrier, and Kerry Blue Terrier.

That's why the Pumi standard on color says:

“The grays are born black and fade to **various shades of gray**. In any of the colors, an intermixture of some gray, black or white hairs is acceptable as long as the overall appearance of a solid color is maintained.”

“Disqualification - Any multiple-color pattern or patches, e.g., black and tan pattern, piebald, parti-colored.”

Gray Pumi with typical color variations

Gray Pumi whose skin has previously been damaged

This mature dog shows various shades of gray and is correct.

However, if the skin is damaged or the hair is pulled out on a dog with this graying gene, the new hairs in that area will come in black and as they grow out will fade to gray. In a few weeks when the hair is scissored, the black tips will be cut off and the hair will eventually fade to the same color as the rest of the surrounding hair.

The intent of the standard is to disqualify genetically multiple-colored dogs such as black and tan or parti-color. But if you consider a that dog with this type of black spot does not maintain "the overall appearance of a solid color", then you should disqualify it. The HPCA felt that clarifying how these patches come about will assist judges in making that determination.

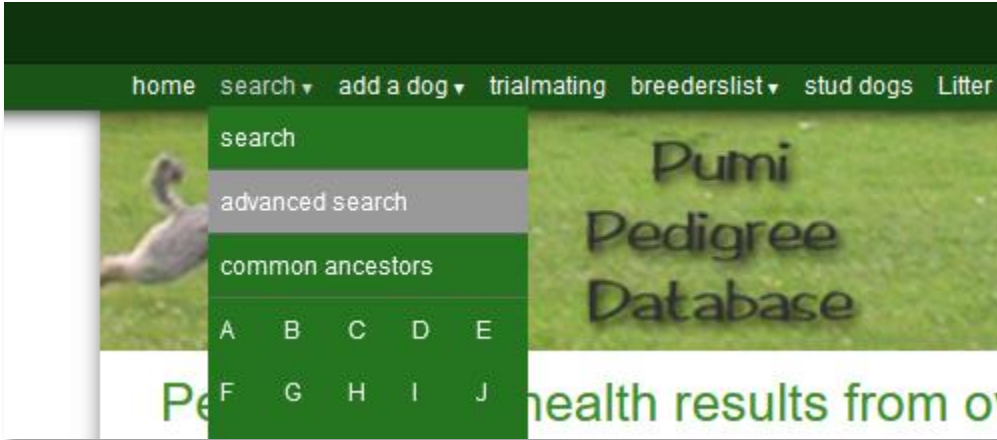

The HPCA has advised its membership that showing a dog in this situation risks their being disqualified. (FYI, there is no merle gene in the breed.)

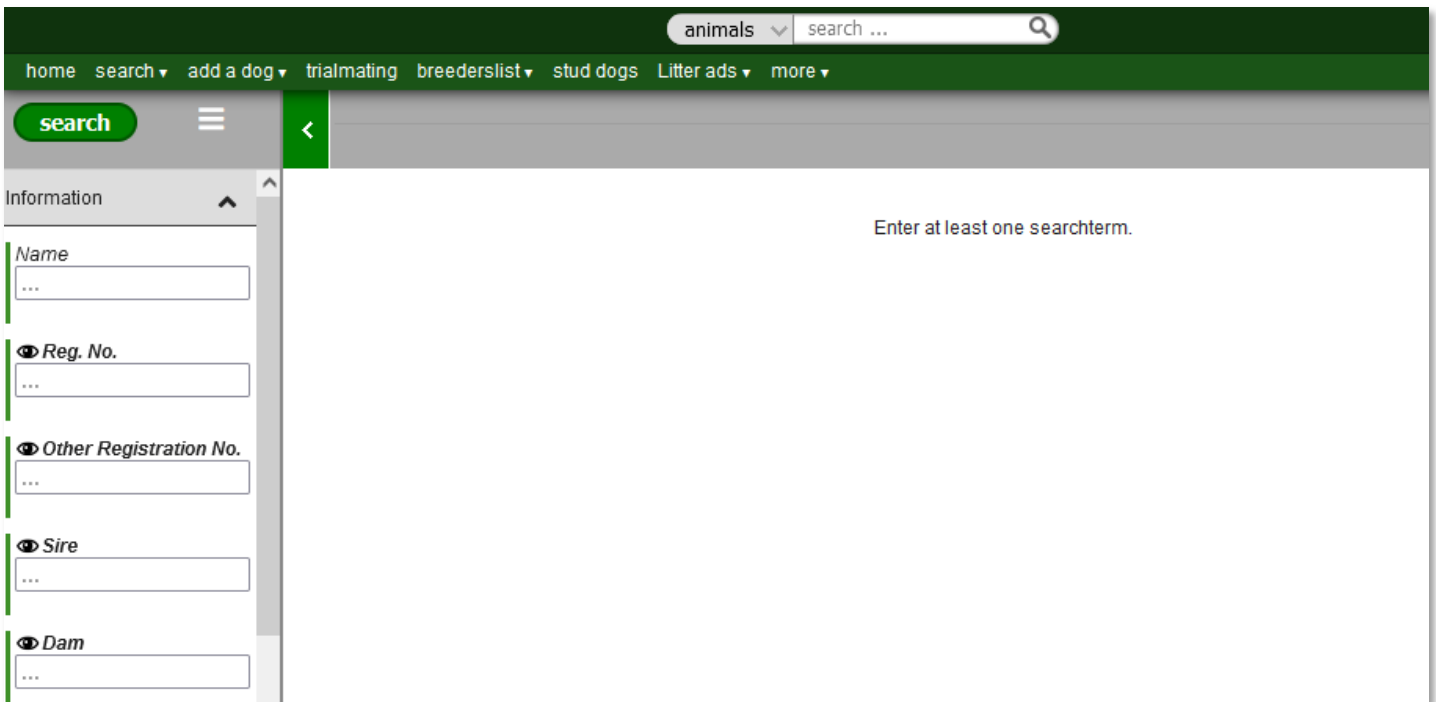

The Pedigree Corner – Advanced Search

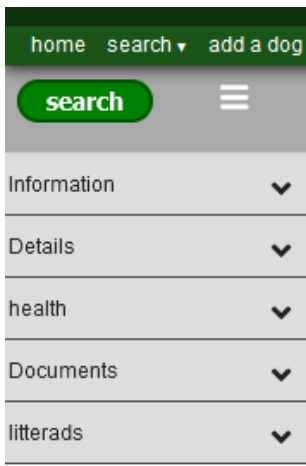

By Chris Levy

The pedigree database now has 14,466 Pumik in it! That's a lot of information, and you can query the database for all of it. Here's how. Select *Search* from the main menu, then select *Advanced Search*.

This screen appears.

On the left side, there is a very long list of fields you can query from – it's basically every field in the database! The “Information” field is expanded, but you can expand and contract the categories by clicking the up or down arrow. Here they are in the contracted form:

These are the fields on which you can query:

Information	Details	Health	Litterads
Name	Call Name	CHIC #	litterad date
Reg. No.	Height	HD Rating	sire
Other	Herding Instinct	HD info	puppy
Registration No.	Temperament	ED Rating	advertisement
Sire	Description	D info	Photo
Dam	Color loci	Patellar Luxation	
Sex	- Color loci date	DM	
DOB	- K locus	DM ID	
DOD	- A locus	PLL	
Registered	- B locus	PLL ID	
Colour	- D locus	Spine	
Actual Color	- E locus	Other heath info	
Resident Country	- S locus		
Country of origin	- H locus		
PreTitle	- M locus		
PostTitle	- Markings		
Photo			
Breeder			
Owner			
Microchip No			
DNA ID			
AKC Stud Book			
Date			
BreedingDog			
Frozen Semen			
Available			
Source			
Comments			

The documents category has a checkbox as to whether the dog has documents associated with it.

So let's do a simple query. Let's find out how many dogs have passed the Herding Instinct Test. So you check the "Passed" checkbox and hit Search and you get a list of 69 dogs on 4 pages. This is a new field and owners should update their dog's info since it's not actually a title.

Information	Name	Reg. No.	Other Registration No.	Sire	Dam

<input type="checkbox"/> empty	♂ Karizma's Mikrokozmosz	DN61484701		Ego Dog's Fab Fantasy	Catskill Csendes Csc
Temperament Description	♂ Mayalu Apollo's Race To The Stars	DN35435901		Szimfonia Arany Zene Keszito	Abiqua Cicelle
	♀ Mayalu's Daeira	DN46035702		Kemences Barita Almaspite	Mayalu's Artemis
	♀ Midnight Lady's Alomarcu Lany	DN51238301		Csunyatelepi Almos	Arkosligeti Kocos Dur

The next cool thing about this is that each dog listed has all their information listed – you just need to scroll (and scroll, and...) to get to the end. And the best thing yet – you can click on the white lines next to the Search button and get these options:

Information	Name	Reg. No.	Other R
reset all fields	♀ Cypress Bay's Bianka At Kadarka	DN43735203	
hide all fields	♀ Cypress Bay's Boglarka at Kadarka	DN43735201	
show all fields	♀ De La Ville Aux Trois Vallees Electra	DN46723801	PmZ 40
export single line	♂ Ederra's Big Machine	DN56226301	
export multi line	♀ Ederra's Lovely to Look At	DN56226307	
Information	♂ Ederra's Viscount of Greystoke	DN56226304	
	♂ Embers Only The Brave	DN56424102	
	♀ Greenfarms Abacogal Of Guana	DN26355106	
	♂ Greenfarms Artful Dodger	DN26355102	
	♀ Greenfarms Silhouette	DL88699601	

Note the *Export* lines: you can download all the information to a csv file that can be put into Excel!

You can also sort by many of the columns – see the arrows in the column heading? Click on this and it will sort that column. Click again and it will sort it the other direction! By default, the original search will be sorted by name – ascending. The active sort is in orange.

Try it out and see what you can find! As always, I'm happy to answer questions.

Influential Dogs of the Past

By Chris Levy

An HPCA member asked me recently if there were any books or articles about influential sires of the past. There is some information on the web, but it's piecemeal and not thorough. So I thought this would be the time to use our (relatively) new pedigree database and see what I could find. Other pedigree databases quite often provide a "line of descendance", also called a "reverse pedigree". Our database didn't have that so I emailed the company. As a matter of fact, they did have that function but they didn't think anyone was using it so took it out. Within a day they provided that function and it opened a whole new way of looking at the breed as a whole. (Right now there is special code to get this display, but the next version of the software will provide this for all users.) This will be the first of (hopefully) many articles on influential Pumi. I thought it appropriate to start this series of articles with our once-in-a-lifetime dog.

FI UCH HU CH PL CH AR CH MX CH WW-05,06,07,09 US GCH Galla-Hegy Gomboc CA PT CM

Gumby was born June 29, 2002 in Hungary and bred twice before we brought him home at 2 years old in 2004. He had 3 CAC's in Hungary (equivalent of the AKC Winners Dog). To get their Hungarian Championship, he needed 3, but it had to be a year and a day between the first CAC and the last CAC. His was less than that, so he was not a Hungarian Champion. He lived with a household of females, and his breeder decided that it was too difficult to live with a boy in a house full of girls, so he decided to let him go. We were coming to Hungary for dog shows and Pumi seminars as a part of their Hungarian breeds show in Kecskemét in October 2004, and brought Gumby home with us.

In 2004 the Pumi was in AKC's Foundation Stock Service (FSS) and the only place to show was UKC or the American Rare Breed Association (ARBA). (The IABCA did not yet exist.) UKC was difficult at that time to break into so we went with ARBA and Gumby had a successful show career with 25 all-breed Bests in Show. At the same time, we were traveling to Europe once or twice a year to learn more about the Pumi and visit breeders there. Almost every year we attended the World Dog Show and Gumby is the only Pumi in the world to have won the CACIB (International CAC) at 3 consecutive World Dog Shows and the only Pumi to have won the CACIB at four different World Dog Shows.

During that time, we took him back to Hungary for a local show and he won his 4th CAC to finish his

Hungarian Championship. All those letters in front of his name mean that he's an International, Hungarian, Polish, Argentine, and Mexican Champion. When the Pumi was eligible to compete at Open Shows, he was Best in Show twice, and had multiple Best in Miscellaneous wins. At Pumifests was four times Best of Breed at the National Specialty.

When July 1, 2016 rolled around and the Pumi could compete for an AKC championship, Gumby was going to be 14 years old. We were sad that he would be too old to become a champion after all the winning that he had done.....but was he? We took him to the big Golden Gate KC dog show in February 2016 to see if he still "had it". He was Best in Open Show and happy to be back in the ring! So on July 1, 2016, at 14 years old, he began his AKC show career and was the first AKC Pumi Champion and twice placed in the group.

Lines of Descendancy

Gumby was bred in the US 6 times. In the early days in the US it was nearly impossible to place puppies and few people wanted to tackle breeding, so from his first 5 litters, only two of his puppies were bred:

- CH Vidam Kertesz Gyongy CM CA SWN SEA ELT1 L3I L2C L2V L1E (Pearl with Abiqua Pumik)
- CH Vidam Kertesz Zeneje CM (Treble with Szimfonia Pumik).

His 6th litter was born when he was 13 years old (natural cover), and produced 3 champion daughters:

- GCHS Abiqua Opal CA BCAT SWN NW1 L1I
- GCH Abiqua Ocsi FDC BCAT
- CH Abiqua Odavisz CA DCAT SWE SCM TKA

He was bred one more time after his death at 16 years old using frozen semen and produced 10 puppies for Kizmet Pumik. The 2 breedings in Hungary produced two lines of top producers through a son, Szürkebarát Balhé, and a daughter, Galla-Hegyí Jázmin.

Following is an abbreviated (the original was 23 pages) line of descendancy from Galla-Hegyí Gomboc. In general, only the US dogs that have competition titles are shown. Titles have been added to the database as AKC reports them,

but only since the database began two and a half years ago. If your dog is missing from this list and

has a title, it's probably because titles hadn't been added to the database. (You can add them yourself any time.)

Now that I'm getting the hang of using this reverse pedigree, I'll start working on dogs from longer ago that are not as familiar.

Please let me know if this is interesting to you and any requests for analysis on specific dogs. You can reach me at chris@abiquadogs.com.
